ABSTRACT

PROBLEM TO BE SOLVED: To ensure that glasses can be taken in and out when a purse having a pocket to **hold bills**, a memo pad, and the like is taken out of a bag and the like by forming a pocket that can hold glasses in the purse.

SOLUTION: This purse consists of right 2 and left 3 members, which are freely opened and closed and the outer surfaces of which are formed by integrally using a soft sheet material, with the middle 4 between them made to function as the hinge of a wallet. Pockets 21, 22, 31, 32, etc., for storing paper and sheets such as bills, a memo pad, or a passport, etc., are formed on the inner surfaces of the members 2, 3. Further, at the top of the right member 2, for example, a card pocket 23 for cash cards, telephone cards, and the like is formed. A pocket 1 to hold glasses is formed on, e.g., the left member 3. The glass pocket 1 is formed so that it can hold paper about 15 to 20mm thick so that, when glasses are stored, no space is formed inside the pocket

Abstract (Basic): US 6276414 B1

NOVELTY - The wallet comprises of planar rectangular panels (12,13) with straps (1-4). The third and fourth straps do not abut against the first and second straps when the panels are in near abutment. The

straps are adapted to hold a piece of currency against the panels respectively when the panels are in near abutment.

USE - For carrying currency bills.

ADVANTAGE - Uses straight and criss-cross straps, such that bills or paper money can be placed or moved under the straps to contain or hold it when folded correctly. Can **hold bills** of various currency. Can be comfortably carried and handled due to smaller size of wallet. Made of flexible material e.g. leather, vinyl or sturdy cloth. Can be completely closed containing bills folded along their narrowest center.

DESCRIPTION OF DRAWING(S) - The figure is a primary drawing showing the wallet with the panels opened to expose straps and inside compartments.

Abstract (Basic): WO 9831553 A

The pin-block or spindle-file composite article comprises upper functional part and a lower holder part. It comprises a linking intermediate element in form of shaped body forming a desired recognition element that is detachable integrated between the holder and the functional part.

The end portion is a securing member in the form of a pin, spindle, hook etc., for holding and collecting papers and cards to be filed upon it by perforation.

USE - E.g. found at restaurants, cafes, bars to keep bills of different clients separately etc.

ADVANTAGE - The fabrication remains simple, efficient and flexible.

Abstract (Basic): JP 9097027 A

The board has an adhesives surface at one side of the secondary board (2) to **hold bills** in place. The secondary board is held in place to the bulletin board using screws or nails that offers a possible way to detach board if needed. The secondary board is cut to the size of the bills for economic purposes.

ADVANTAGE - Secures bills in place without ruining surface of billboard due to secondary board. Provides better avenue for posting bills.

Currency holding folder for dispensing machine - has corner cut-out for checking on presence and denomination of notes

Patent Assignee: MAIL-WELL ENVELOPE (MAIL-N)

Number of Countries: 001 Number of Patents: 001

Patent Family:

Patent No	Kind	Date	Applicat No	Kind	Date	Week
US 3999701	A	19761227				197702 B

Priority Applications (No Type Date): US 75611313 A 19750908; US 71127728 A 19710324; US 73331981 A 19730212; US 74472621 A 19740523

Abstract (Basic): US 3999701 A

The currency holding folder has a bottom panel, a cover and a top flap to **hold bills** of currency to form a packet of a predetermined thickness which can be checked by feelers to determine full loading. The top flap has an end cutout to provide clearance for a gripper of an inserting machine, and the top flap is narrower than the bottom panel so that the top flap does not go under a hold-down guide. The top flap is shorter than the bottom panel which has a corner cutout to expose the corners of currency bills in the folder. The cover is of substantially the same width as the bottom panel so that the front edge of the cover is at the edge of the folder.

Title Terms: CURRENCY; HOLD; FOLDER; DISPENSE; MACHINE; CORNER; CUT; CHECK; PRESENCE; DENOMINATION; NOTE

NYS Legis has approved with little public notice bill to require investors to get NYS Banking Bd approval before acquiring 10% or more of outstanding shares of Federally or state-chartered bank or 1-bank holding company based in state. Bill, if signed by Gov Carey, would not affect acquisitions already approved, such as recent takeover of Natl Bank of N Amer by Natl Westminster Bank, or pending acquisitions, such as Hongkong & Shanghai Banking Corp bid for control of Marine Midland Banks. Bill was introduced last summer, when state banking officials became concerned about foreign takeovers of large banks. Some indus analysts hold bill was delayed in Sen Banking Com by lobbying tactics of CIT Financial Corp, which sold Natl Bank of N Amer. Believe bill might reinforce opposition to foreign takeovers. Bill would not apply to recent acquisition by Swiss citizen Bruce Rappaport of 9.8% of Litco Corp, which owns LI Trust Co. Litco chmn Arthur Hug reptly strongly backed bill to assure that foreign interests would not gain control of Litco in future (M.)

Gov Carey's office repts it had 'nearly completed' long-awaited \$2.6-billion pkg of financing arrangements to rescue NYS construction agencies from financial collapse. In flurry of activity, lawyers and fiscal aides working for Carey brief legislators on 16 new bills implementing rescue that Carey's aides maintain have to be passed right away. Legis officials, however, hold bills are so complex and fraught with pol pitfalls that they doubt there could be any action until next wk. Construction agencies involved in \$2.6-billion pkg--all of which borrow on state's 'moral obligation' to repay--are Housing Finance Agency, Dormitory Auth, Med Care Facilities Finance Agency and Environmental Facilities Corp (M).)

NJ Assembly, 40 to 26, defeats Repub motion to begin debate with income tax measure. By vote of 31 to 27, defeats bill that would provide property-tax relief to homeowners. Dems try to rescue bill through parliamentary maneuvering. Defeat Repub attempts to adjourn, and hold

bill in chamber for possible vote later on. Session becomes tumultuous when Essex County delegation refuses to support property tax bill. Dems agree to take up major bill in pkg: 2% to 4% tax on personal income. If this bill fails, there will be no need to take up 13 other bills or question of financing Educ Act of '75, which would probably have to be determined by cts. Other bills, proposing flat 2% tax on gross incomes, and statewide property tax at \$1 per \$1000 of assessed valuation, are not given much chance to pass. Essex County delegation says it will not vote for income tax plan because it does not restore budget cuts made in higher educ, Medicaid and programs for aged and disabled. Indicate they would support income tax that restores some of \$200-million in budget cuts. Gallery is crowded with elderly who oppose income tax. Illus (M.)

HR, 293-107, passes \$5.3-billion bill designed to finance job-producing projects. Dem sponsors hold bill will provide 900,000 jobs. Sen-HR dispute over measure must be resolved. Veto has been threatened by Pres Ford. Bill includes funds for public service jobs in state and local govts and appropriations and authority to guarantee loans for wide variety of public works projects and programs of Reclamation Bur, Corps of Engineers, Agr Dept and other agencies. Also includes funds to speed up lending by SBA. Controversial HR-passed version item, which provided for purchase of 121,000 autos, was scaled down to 21,000. Sen amendment providing \$700-million for railroad improvements is still in dispute. In related development, HR Ways and Means Com unanimously approves \$6-billion bill expanding and extending 2 temporary programs of federally financed jobless benefits through '76. 26-wk program will be extended through mid-'76 and special unemployment assistance program will be extended through '76 while increasing maximum number of wks from 26 to 39. Detailed Description

Detailed Description

... maker

quotation from the bandwidth market system;

Figure 141 is a block diagram of a **bill** pay system relying on postal
mailed payments;

1 6

Figure 143 is a block diagram...an order for the products and services
may be received and processed, after which a **tax** and a shipping fee
are **calculated**. A status of delivery for one or more of the ordered
products and services may...

...configuration. The advertising could include customized advertising
based upon the user profile. The step of **calculating** at least one of
the **tax** and the shipping fee may further include calculating a
plurality of taxes and shipping fees...been ordered, that the price is
satisfactory, and that the desired shipping provider is selected.

TAX AND SHIPPING CALCULATIONS

Provides **tax** cost on associated order

Provides shipping cost on associated order

Handles multiple tax laws within US

Handles multiple tax implication globally

As shown in Figure 54, operation 5416 **calculates** at least one of a **tax**
and a shipping fee for at least one of the items, i.e., products and
services, for which the order is received. The **tax** cost for each order
is **calculated**, and may include a listing of the tax per item. The
shipping costs for each...

...provider.

Optionally, mathematical formulas based on multiple applicable tax laws may be used in the **calculation** of the **tax**. Such applicable **tax** laws may include only domestic taxes for domestic delivery, and may include applicable foreign tax...in operation 6501. Licensee (user) identification information is set forth in operation 6502. Optionally,
180

verification of identification may be performed in operation 6503, such as prompting a user to enter...

ABSTRACT: The telecommunications industry has overtaken the sweepstakes industry for the dubious title as The Most Complained About Industry. From January through June 1998, the National Fraud Information Center received 2,071 cramming reports, plus hundreds more calls from consumers with a cramming problem but not enough details for the NFIC to file a formal report. While abuses in that area eventually led to the Telephone Disclosure and Dispute Resolution Act of 1992, it remains to be seen whether legislation or industry self-policing will help solve the cramming problem. Both the Federal Communications Commission and the Federal Trade Commission appear receptive to a move in Congress to give them more authority to act, but local exchange carriers oppose specific federal regulations or legislation.

TEXT: Headnote:

Congress ponders rules for telephone billing, but industry is leery.

THE TELECOMMUNICATIONS INDUSTRY HAS OVERTAKEN the sweepstakes industry for the dubious title as The Most Complained About Industry.

From January through June of this year, the National Fraud Information Center received 2,071 cramming reports, plus hundreds more calls from consumers with a cramming problem but not enough details for the NFIC to file a formal report. The Federal Trade Commission defines cramming as unexplained charges on a consumer's telephone bill for services never ordered, authorized, received or used.

"Cramming wasn't even among the 1997 top frauds" according to NFIC Director Susan Grant. "[N]ow its outnumbered the second most-reported scam, slamming, two-to-one" (Slamming occurs when customers have their long-distance provider switched without their authorization or knowledge.)

According to Eileen Harrington, the associate director for marketing practices in the FTC's Bureau of Consumer Protection, "The advent of pay-per-call [technology] marked the beginning of the use of the telephone billing and collection system as a means for consumers to pay for products or services other than telephone transmissions."

While abuses in that area eventually led to the Telephone Disclosure and Dispute Resolution Act of 1992 (15 U.S.C. sec. 5701 et seq., and 47 U.S.C. sec. 228), it remains to be seen whether legislation or industry self-policing will help solve the cramming problem. Both the Federal Communications Commission and the Federal Trade Commission appear receptive to a move in Congress to give them more authority to act, but local exchange carriers oppose specific federal regulations or legislation.

The Scope of Fraud

NFIC's Grant, who is also vice president of public policy for the National Consumers League, appeared as the lead witness at the first Capitol Hill hearing on cramming, convened in July by Sen. Susan Collins (R-Maine), chairwoman of the Senate's Permanent Subcommittee on Investigations. In her testimony, Grant recounted some cramming incidents reported to the NFIC:

* Caller asks customer to verify address or phone number. Charges then

appear on customer's phone bill. The explanation? By verifying, the customer "authorized" the new charges.

- * Telemarketer invites consumer to join a travel club. Consumer asks for written information, which is never sent, but charges are added to the phone bill.

- * Consumer fills out sweepstakes entry form, is then billed for club memberships, telecommunications services, etc. (The FTC filed suit in July against Hold Billing Services Ltd., and one of its client, Veterans of America Association, for this practice.)

Cramming, as Sen. Collins stressed at the hearing, is "not a small inconvenience, but a growing consumer fraud."

Statistics back up that statement. Besides the 2,000-plus written reports prepared by the NFIC in the first six months of 1998, Lawrence E. Strickling, deputy chief of the FCC's Common Carrier Bureau, told the subcommittee that the commission receives 300 written complaints and 2,000 inquiries on its hotline per month. At the state level, the Michigan Public Service Commission reportedly receives up to 20 complaints about cramming per day. The Texas Public Utility Commission has received more than 3,100 cramming complaints since Sept. 1, 1997.

Individuals aren't the only victims. The FTC's Harrington, another witness at the investigations subcommittee, noted that businesses, school districts, law firms and dedicated fax lines have been targeted, as well.

Legislation: Too Heavy-Handed?

The subcommittees earlier hearings on slamming paved the way for anti-slamming legislation that Collins and her subcommittee colleague, Sen. Dick Durbin (D-Ill.) introduced, and which the Senate passed in May. The two senators apparently have the same goal in mind with cramming.

"To stop cramming," Collins declared, we need a combination of tough enforcement by the regulators, industry self-discipline, and meaningful consumer protection." Durbin suggested that phone bills need to be redesigned to be more customer-friendly, and referred to the need to "be vigilant to protect" consumers in this "Wild West atmosphere." Another subcommittee member, Sen. Thad Cochran (R-Miss.), also is convinced that action is needed. "If there's not a law against it, there ought to be," he said.

The FCC, Strickling testified, would like Congress to "extend the jurisdiction of the FCC to reach the practices of the billing clearinghouses and service providers when unauthorized charges appear on consumers' telephone bills. At the same time, he says, Congress should clarify that the FTC has jurisdiction to ensure fair advertising and marketing practices, whether or not the entity responsible for cramming is a common carrier." Although this might result in some jurisdictional overlapping, Strickling said, that would be preferable to allowing "the bad actors to delay or avoid prosecution by taking advantage of potential gaps in jurisdiction."

Eileen Harrington of the FTC stressed that the commission is using what law-enforcement authority it already has to deal with cramming or other fraudulent companies, but she agreed that clarification of jurisdictional boundaries would be helpful.

There is some industry resistance to federal regulation in this area.

Roy Neel, president of the United States Telephone Association, told the subcommittee that while USTA welcomes "aggressive oversight" from Congress, local exchange carriers oppose specific federal regulations or legislation to deal with the problem. Such a move would only provide "a snapshot, or a freeze frame" of where the problem is today and today's solutions may not fit where the industry-or the problem-is in one or two years, he said. Instead, Neel prefers giving the industry time to implement the voluntary

industry "best-practices" guidelines, which were compiled at the behest of the FCC and unveiled the day prior to the subcommittee hearing (see box).

This "self-policing effort," Neel believes, "is a critical step toward purging telephone bills of this scourge" Although local exchange carriers are not accused of cramming, the local telephone industry still has an "intense interest in fixing this problem," Neel stressed. Any money an LEC may make from allowing a thirdparty service provider to add charges to its bill are "more than offset by the lack of trust and goodwill of its consumers," he added.

The Alternative: Screening by Telcos?

Some LECs didn't wait for industry-compiled guidelines to act against crammers.

Since January 1997, U S WEST Communications has reviewed every product-and the provider's marketing materials-before allowing a service to be added to its local phone bills to ensure that the products are appropriate and telecommunications-related. (The carrier does not allow pornographic and psychic lines.) In spite of this aggressive action, some services still slip through. Last year, U S WEST stopped billing for two services after customer complaints indicated possible cramming. As of April of this year, Cindy Humphrey, director of billing services for U S WEST, said that the company had canceled billing for 14 services. When asked whether it reported that action to the FTC or the FCC, a representative told the Fortnightly, "No. We're not a cop or a regulator. We're not interested in determining intent [or] who's at fault. Our job is to protect our customers."

GTE Network Services' Wholesale Markets announced in May that it was "severing" billing relations with three companies whose complaint levels were unacceptable and was initiating financial penalties against 11 additional companies. In addition, after Jan. 1, 1999, GTE will no longer allow non-telecommunications or informationrelated charges to be added to bills, and will also begin requiring independent third-party verification of any new service other than long-distance services that goes on a GTE local bill.

Bell Atlantic has served formal notice on at least seven billing aggregators that it will no longer bill for their services unless they cure problems caused by at least 35 telecommunications providers who are generating cramming complaints from customers. In May, Bell Atlantic declared a moratorium on the billing of any new services not previously approved until it can be assured that cramming is under control. In July, the LEC announced that "in several months" its customers will be able to limit whose charges are carried on their local telephone bill.

LECs aren't the only ones taking action against crammers. Neel reminded the subcommittee that many state utility commissions have rules that don't allow cutting off service during billing disputes, so if a charge seems suspicious, consumers need to realize that they won't be penalized if they don't pay for it. In Texas, as of May 31, customers had received refunds for cramming charges totaling \$8,991.

Illinois Gov. Jim Edgar signed legislation on July 1 giving consumers additional protection against cramming and slamming. The law bans sweepstakes boxes of the type identified above for marketing long-distance and enhanced phone services. It also requires notification of new services to consumers in writing, giving the customer the opportunity to cancel, or independent, third-party verification of the consumers consent via telephone.

Bogus Charges from 'Slammers' Outrage Columbus, Ga., Phone Customers

Greg Groeller

KRTBN KNIGHT-RIDDER TRIBUNE BUSINESS NEWS (COLUMBUS (GA.) LEDGER-ENQUIRER)

September 04, 1998

JOURNAL CODE: KCLE LANGUAGE: English RECORD TYPE: FULLTEXT

WORD COUNT: 661

Sep. 4--Gloria Hodge got more than she bargained for when she switched long-distance phone companies in April.

Hodge, an office manager for Bass Small Engines in Columbus, thought she was switching her company to a new long-distance plan offered by BellSouth.

But when she got her August phone bill, BellSouth was nowhere to be found on the long-distance portion of the bill. Instead, she found charges totaling \$34 from three companies she had never heard of.

Worse, she checked over the company's phone bills for the previous three months and found she had unknowingly paid \$14 in bogus charges to various long-distance companies.

Hodge had been "slammed," a scam in which phone customers are switched to new long-distance companies without their knowledge.

"I resent this," Hodge said Thursday. "This is my privacy. There should be a law to make sure this doesn't keep happening."

Unfortunately for Hodge, and millions like her across the United States, there isn't. In fact, it was a 1996 federal law that kicked off the slamming scam in the first place.

The law forced Baby Bells to provide billing for all companies licensed to offer telecommunications services such as long-distance or paging. While most of the companies are honest, some claim to have signed up customers when they really haven't.

In west Georgia and east Alabama, more than 10,000 customers were victimized by slamming in the last two years, says Lou Marcotte, president of the Better Business Bureau in Columbus.

"We get calls about it all the time," Marcotte said.

Tom Alexander, a BellSouth spokesman, said BellSouth is helpless to stop slamming. The law allows long-distance companies to sign up customers without written approval, so BellSouth essentially must take the long-distance companies' word for it that the customer has consented to the switch, Alexander said.

"Under law, we have to bill for them," Alexander said. "As long as they are certified, we have no way to stop them."

Many times, telemarketers will call and say they are affiliates of BellSouth, Alexander said. That may be technically accurate because they have billing contracts with BellSouth, but it often confuses customers into thinking the caller is a BellSouth employee, he said.

"If you're not listening carefully, it might sound like they are employees of BellSouth," he said.

That may be what happened to Hodge. She says she's pretty sure the person who called her identified himself as a BellSouth employee. But she can't be positive.

Whatever the case, Hodge says she was angry when she noticed the bogus charges on her August bill. So she called each of the three companies listed on her bill to complain.

One of them, Texas-based Hold Billing Services, told her they simply handle the billing for another long-distance company, Least Cost Routing. Hodge says that when she called Least Cost, a representative insisted that she had signed up with the company.

Deborah Weaver, manager of customer service for Hold Billing, said the company does billing for more than 100 long-distance providers.

"We screen all the companies we bill for," Weaver said. "But every once in a while, there's going to be one that slips through the cracks."

Weaver said Hold Billing isn't responsible for charges made by other companies, even if they are false.

"What we're doing is completely legal," she said.

A man identifying himself only as Mark at Least Cost Routing said the company never misrepresents itself to customers.

"We don't claim to be BellSouth," he said. "We could be arrested for that."

FTC cracks down on 'cramming,' takes two companies to court. (Federal Trade Commission)

Telecommunications Reports, v64, n29, p29(1)

July 20, 1998

RECORD TYPE: Abstract

ABSTRACT: The Federal Trade Commission has heightened its campaign to stop 'cramming' by filing separate cases against violators of section 5 of the Federal Trade Commission Act of 1914. Among those charged is Veterans of America Assn (VOAA) and its billing company Hold Billing Services Ltd, which were allegedly deceiving customers into paying VOAA membership fees on their telephone billings. The other case was filed against Online Consulting Group Inc and its billing aggregator International Telemedia Assn for misrepresentation of its telephone matching services.
